

**Betty Flowers has been with Sequoyah Planning since 2005 as our Client Services Administrator.**

**Betty retired after 30 years from Cutler-Hammer, a division of Eaton Corporation. Retirement turned out to be not as stimulating as she had hoped it would be, so she came to work with us. As a GRITS - Girl Raised In The South - Betty is the epitome of Southern charm and warmth, and our clients truly enjoy dealing with her on the phone or when they come into the office.**

**Betty is a survivor of the 2009 “Great Floods” that took place here in Georgia. Her home was 100% demolished as were 99% of all of her personal belongings. With fortitude and grace she took each day as it came and did what was necessary to regroup her life. She bought a new home and replaced the material belongings she had lost, and has reestablished her routines and semblance of normalcy. She made sure that the house she now lives in is nowhere near a water source of any kind! She did take a little time off from work to accomplish all of this, but you can’t keep a good gal down and now she’s back, spreading sweetness and cheer to all she encounters.**

**Betty is our right hand woman and the one who makes sure those little details that mean so much to our clients are taken care of. If you give her a message, it will get to where it’s supposed to be. No task is too big or too small for Betty, and the kind of loyalty, dependability and integrity that she encompasses are hard to come by these days. We are fortunate to have this wonderful lady as our Client Services Administrator.**
